

Sodium Bicarbonate

Issue Date: 01-12-2010
Last Up Date: 24.03.2021
Revision: 06

According to Regulation (EC) No 1907 /2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of the substance / mixture and of the company / undertaking.

1.1 Product identifier.

Product name:	Sodium Bicarbonate
Chemical name:	Sodium Hydrogencarbonate
Synonyms trade names:	Sodium Hydrogen Carbonate, Baking Powder, Bicarbonate Soda.
REACH registration number:	01-2119457606-32-0008
CAS number:	144-55-8
Ec number:	205-633-8

1.2 Relevant identified uses of the substance or mixture and uses advised against.

Identified uses:	Feed material, Food additive material, Medical products Medical devices, Cosmetics, Flue gas treatment, Mining and metal industry; Paper industry.
Uses advised against:	No specific advised against are identified.

1.3 Details of the supplier of the safety data sheet.

Importer:	SAISA CHEMICALS S.A.
Address:	C/ Juan Hurtado de Mendoza, 15, 1º post. - 28036 (Madrid) ESPAÑA.
Telephone number:	+00 34 91 345 94 44
E-mail:	saisa@saisa.es

SECTION 2: Hazards identification.

2.1 Classification of the substance or mixture.

Physical hazards:	Not Classified.
Health hazards:	Not Classified.
Environmental hazards:	Not Classified.

2.2 Label elements.

EC number:	205-633-8
Hazard statements:	NC Not Classified

2.3 Other hazards.

This substance is not classified as PBT or vPvB according to current EU criteria.

SECTION 3: Composition / information on ingredients.

3.1 Substances.

Product name:	SODIUM BICARBONATE.
REACH registration number:	01-2119457606-32-0008
CAS number:	144-55-8
EC number:	205-633-8
Chemical formula:	NaHCO ₃
Composition comments:	>99%

SECTION 4: First aid measures.

4.1 Description of first aid measures.

General information:	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.
Inhalation:	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.
Ingestion:	Rinse mouth thoroughly with water. Remove any dentures. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.
Skin contact:	Brush off loose particles from skin. Remove affected person from source of contamination. Rinse immediately with plenty of water.
Eye contact:	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.

Protection of first aiders: First aid personnel should wear appropriate protective equipment during any rescue.

4.2 Most important symptoms and effects, both acute and delayed.

General information:	See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation:	Dust may irritate the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
Ingestion:	May cause discomfort if swallowed. May cause stomach pain or vomiting.
Skin contact:	Prolonged contact may cause dryness of the skin.
Eye contact:	Dust may cause slight irritation.

4.3 Indication of any immediate medical attention and special treatment needed.

Notes for the doctor:	Treat symptomatically.
Specific treatments:	No special treatment required.

SECTION 5: Firefighting measures.

5.1. Extinguishing media.

Suitable extinguishing media:	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture.

Specific hazards:	None known.
Hazardous combustion products:	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.

5.3. Advice for firefighters.

Protective actions during firefighting:	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out.
Special protective equipment for firefighters:	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.

SECTION 6: Accidental release measures.

6.1. Personal precautions, protective equipment and emergency procedures.

Personal precautions:

No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage.

6.2. Environmental precautions.

Environmental precautions:

Avoid discharge to the aquatic environment. Large Spillages: Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).

6.3. Methods and material for containment and cleaning up.

Methods for cleaning up:

Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Reuse or recycle products wherever possible. Approach the spillage from upwind. Avoid generation and spreading of dust. Small Spillages: Remove spillage with vacuum cleaner or collect with a shovel and broom, or similar. Large Spillages: Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Neutralise with acid. Caution. May generate heat. Following dilution and neutralisation, discharge to the sewer with plenty of water may be permitted. The requirements of the local water authority must be complied with if contaminated water is flushed directly to the sewer. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

6.4. Reference to other sections.

Reference to other sections:

Far persona I protection, see Section 8.

SECTION 7: Handling and storage.

7.1. Precautions for safe handling.

Usage precautions:

Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. Avoid handling which leads to dust formation.

Advice on general occupational hygiene:

Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

7.2. Conditions for safe storage, including any incompatibilities.

Storage precautions Storage class:

Store in accordance with local regulations. Store away from the following materia ls: Acids. Acid-reactive storage.

7.3. Specific end use(s)

Specific end use(s):	The identified uses for this product are detailed in Section 1.2.
----------------------	---

SECTION 8: Exposure Controls/personal protection.

8.1. Control parameters.

Ingredient comments:	No exposure limits known for ingredient(s).
----------------------	---

8.2. Exposure controls.

Protective equipment:	
Appropriate engineering controls:	Provide adequate ventilation. Good general ventilation should be adequate to control worker exposure to airborne contaminants.
Eye/face protection:	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. The following protection should be worn: Dustresistant, chemical splash goggles.
Hand protection:	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended..
Other skin and body protection:	Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible..
Hygiene measures:	Provide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke.
Respiratory protection:	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. Wear a suitable dust mask.
Environmental exposure controls:	Not regarded as dangerous for the environment.

SECTION 9: Physical and Chemical Properties.

9.1. Information on basic physical and chemical properties.

Appearance:	Solid. Granules.
Colour:	White.
Odour:	Odourless.
pH (diluted solution):	8.4 {1%}
Melting point:	Not applicable.
Initial boiling point and range:	Not applicable.
Flash point:	Not applicable.
Evaporation rate:	Not applicable.
Flammability (solid, gas):	Not applicable.
Upper/lower flammability or explosive limits:	Not applicable.
Vapour pressure:	Not applicable.
Vapour density:	Not applicable.
Relative density:	2.21 - 2.23 @ 20°C°C
Solubility(ies):	93.4 g/1 water@ 20°C
Partition coefficient:	Not applicable.
Auto-ignition temperature:	Not applicable.
Decomposition Temperature:	>60°C
Viscosity:	Not applicable.
Explosive properties:	There are no chemical groups present in the product that are associated with explosive properties.
Oxidising properties:	There are no chemical groups present in the product that are associated with oxidising properties.

9.2. Other information.

Other information:	No information required.
--------------------	--------------------------

SECTION 10: Stability and reactivity.

10.1. Reactivity.

Reactivity:	There are no known reactivity hazards associated with this product.
-------------	---

10.2. Chemical stability.

Stability:	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
------------	---

10.3. Possibility of hazardous reactions.

Possibility of hazardous Reactions:	No potentially hazardous reactions known.
-------------------------------------	---

10.4. Conditions to avoid

Conditions to avoid:	There are no known conditions that are likely to result in a hazardous situation.
----------------------	---

10.5. Incompatible materials.

Materials to avoid:	Acid anhydrides. Acids. Phenols, cresols.
---------------------	---

10.6. Hazardous decomposition products.

Hazardous decomposition Products :	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
------------------------------------	--

SECTION 11: Toxicological information.

11.1. Information on toxicological effects.

Toxicological effects:	Not regarded as a health hazard under current legislation.
Acute toxicity -oral	
Notes (oral LD50):	Based on available data the classification criteria are not met.
Acute toxicity -dermal	
Notes (dermal LD50):	Based on available data the classification criteria are not met.
Acute toxicity -inhalation	
Notes (inhalation LC50):	Based on available data the classification criteria are not met.
Skin corrosion/irritation	
Animal data:	Based on available data the classification criteria are not met.
Serious eye damage/irritation	
Serious eye damage/irritation:	Based on available data the classification criteria are not met.
Respiratory sensitisation	
Respiratory sensitisation:	Based on available data the classification criteria are not met.
Skin sensitisation	
Skin sensitisation:	Based on available data the classification criteria are not met.
Germ cell mutagenicity	
Genotoxicity -in vitro:	Based on available data the classification criteria are not met.

Carcinogenicity

Carcinogenicity: Based on available data the classification criteria are not met.

IARC carcinogenicity: None of the ingredients are listed or exempt.

Reproductive toxicity

Reproductive toxicity -fertility: Based on available data the classification criteria are not met.

Reproductive toxicity Development: Based on available data the classification criteria are not met.

Specific target organ toxicity -single exposure

STOT -single exposure:

Specific target organ toxicity -repeated exposure

STOT -repeated exposure: Not classified as a specific target organ toxicant after a single exposure.

Aspiration hazard

Aspiration hazard: Not relevant. Solid.

General information: No specific health hazards known. Dust may irritate the eyes and the respiratory system. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Inhalation: Dust may irritate the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.

Ingestion: May cause discomfort if swallowed. May cause stomach pain or vomiting.

Skin contact: Prolonged contact may cause dryness of the skin.

Eye contact: Dust may cause slight irritation.

Route of entry: Ingestion Inhalation Skin and/or eye contact.

Target organs: No specific target organs known.

SECTION 12: Ecological Information.

Ecotoxicity: Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

12.1. Toxicity.

Toxicity: Based on available data the classification criteria are not met.

12.2. Persistence and degradability.

Persistence and degradability: The degradability of the product is not known.

12.3. Bioaccumulative potential.

Bioaccumulative potential: No data available on bioaccumulation.

Partition coefficient: Not applicable.

12.4. Mobility in soil.

Mobility:

The product is water-soluble and may spread in water systems.

12.5. Results of PBT and vPvB assessment.

Results of PBT and vPvB
Assessment:

This product does not contain any substances classified as PBT or vPvB.

12.6. Other adverse effects.

Other adverse effects:

None known.

SECTION 13: Disposal considerations.

13.1. Waste treatment methods.

General information:

The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements.

Disposal methods:

Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of the local water authority.

SECTION 14: Transport information.

General:

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number.

Not applicable.

14.2. UN proper shipping name.

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group.

Not applicable.

14.5. Environmental hazards.

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user.

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

SECTION 15: Regulatory information.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.

National regulations:

Health and Safety at Work etc. Act 1974 (as amended).
 The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).
 The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].
 EH40/2005 Workplace exposure limits.

EU legislation:

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).
 Commission Regulation (EU) No 453/2010 of 20 May 2010.
 Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).
 Dangerous Preparations Directive 1999/45/EC.
 Dangerous Substances Directive 67 /548/EEC.

15.2. Chemical safety assessment.

No chemical safety assessment has been carried out.
