

## SODA ASH DENSE

According to Regulation (EC) No 1272/2008 Annex II, as amended by Regulation (EU) No 2015/830

### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### 1.1. Product identifier

Product name:	Sodium carbonate
Chemical name:	Sodium carbonate
Synonyms trade names:	Heavy Soda Ash, Soda Salt, Sodium Carbonate
Número de registro REACH:	01-2119485498-19-0012
Número CAS :	497-19-8
EU index number:	011-005-00-2
Número CE :	207-838-8

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses:	Glass Production, Detergent Production, Chemical Production, Paper Pulp and Paper, Water and Waste Water Treatment, Flue Gas Desulphurization.
Uses advised against:	No specific advised against are identified.

#### 1.3. Details of the supplier of the safety data sheet.

Importer:	SAISA CHEMICALS S.A.
Address:	C. JUAN HURTADO DE MENDOZA 15, 1º POST 28036 MADRID (ESPAÑA)
Telephone number:	0034913459444
e-mail:	saisa@saisa.es
Emergency phone:	00 34 91 562 04 20

### SECTION 2: Hazards identification.

#### 2.1. Classification of the substance or mixture.

Physical hazards:	Not Classified.
Health hazards:	Eye Irrit. 2 -H319
Environmental hazards:	Not Classified.

#### 2.2. Label elements.

EC number:	207-838-8
Pictogram	
EC number:	Warning.
Hazard statements:	H319 Causes serious eye irritation.
Precautionary statements.	P264 Wash contaminated skin thoroughly after handling. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention.

#### 2.3. Other risks

This substance is not classified as PBT or vPvB according to current EU criteria.

### SECTION 3: Composition / information on ingredients.

#### 3.1. Substances.

Product name:	SODIUM CARBONATE
REACH registration number:	01-2119485498-19-0012
CAS number:	497-19-8
CE number:	207-838-8
Chemical formula:	NA <sub>2</sub> CO <sub>3</sub>
Composition comments:	> 99,5%

### SECCIÓN 4: First aid measures.

#### 4.1. Description of first aid measures.

General information:	Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
Inhalation:	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing can take place

Ingestion:	Rinse mouth thoroughly with water. Remove any dentures. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Place unconscious person on their side in the recovery position and ensure breathing can take place. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.
Skin contact:	Brush off loose particles from skin. Rinse with water.
Eye contact:	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.
Protection of first aiders:	First aid personnel should wear appropriate protective equipment during any rescue.

#### 4.2. Most important symptoms and effects, both acute and delayed.

General information:	See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation:	Dust may irritate the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
Ingestion:	May cause discomfort if swallowed. May cause stomach pain or vomiting.
Skin contact:	Prolonged contact may cause dryness of the skin.
Eye contact:	Irritating to eyes.

#### 4.3. Indication of any immediate medical attention and special treatment needed.

Notes for the doctor:	Treat symptomatically.
-----------------------	------------------------

### SECTION 5: Firefighting measures.

#### 5.1. Firefighting measures.

Suitable extinguishing media:	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.

#### 5.2. Special hazards arising from the substance or mixture.

Specific hazards:	NC
Hazardous combustion Products:	Hazardous combustion Products:

#### 5.3. Recommendations for firefighters

Medidas protectoras durante la lucha contra el fuego:	Avoid breathing fire gases or vapors. Evacuate the area. Cool containers exposed to heat with water spray and remove from fire area if it can be done without risk. Cool fire-exposed containers with water until long after fire is out. Control excess water by containing it and keeping it out of sewers and watercourses.
Special protective equipment for firefighters:	Wear positive pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter clothing suitable to European Standard EN469 (including protective helmets, gloves and boots) will provide a basic level of protection in the event of a chemical incident.

### SECTION 6: Accidental release measures.

#### 6.1. Personal precautions, protective equipment and emergency procedures.

Personal precautions:	No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material.
-----------------------	---

#### 6.2. Environmental precautions.

Environmental precautions:	Large Spillages: Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).
----------------------------	--

#### 6.3. Methods and material for containment and cleaning up.

Methods for cleaning up:	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Approach the spillage from upwind. Avoid generation and spreading of dust. Small Spillages: Remove spillage with vacuum cleaner or collect with a shovel and broom, or similar. Large Spillages: Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Neutralize with acid. Caution. May generate heat. Following dilution and neutralization, discharge to the sewer with plenty of water may be permitted. The requirements of the local water authority must be complied with if contaminated water is flushed directly to the sewer. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
--------------------------	---

#### 6.4. Reference to other sections.

Reference to other sections:	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
------------------------------	---

## SECTION 7: Handling and storage.

### 7.1. Precautions for safe handling.

Usage precautions:	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. Avoid handling which leads to dust formation. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment.
Advice on general occupational hygiene:	Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

### 7.2. Conditions for safe storage, including any incompatibilities.

Storage precautions:	Store in accordance with local regulations. Store away from the following materials: Acids. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. Bund storage facilities to prevent soil and water pollution in the event of spillage. The storage area floor should be leaktight, jointless and not absorbent. Acid-reactive storage
Storage class	Acid-reactive storage.

### 7.3. Specific end use(s).

Specific end use(s):	The identified uses for this product are detailed in Section 1.2.
----------------------	---

## SECTION 8: Exposure Controls/personal protection.

### 8.1. Control parameters.

Ingredient comments:	No exposure limits known for ingredient(s).
----------------------	---

### 8.2. Exposure controls.

Protective equipment	
Appropriate engineering controls	Provide adequate ventilation. Personal, workplace environment or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Use process enclosures, local exhaust ventilation or other engineering controls as the primary means to minimize worker exposure. Personal protective equipment should only be used if worker exposure cannot be controlled adequately by the engineering control measures. Ensure control measures are regularly inspected and maintained. Ensure operatives are trained to minimize exposure.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. Wear tight-fitting, chemical splash goggles or face shield. If inhalation hazards exist, a full-face respirator may be required instead.
Hand protection:	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.
Other skin and body protection:	Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible.
Hygiene measures:	Provide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke. Preventive industrial medical examinations should be carried out. Warn cleaning personnel of any hazardous properties of the product.
Respiratory protection:	Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m <sup>3</sup> . Wear a suitable dust mask. Ensure all respiratory protective equipment is suitable for its intended use and is 'CE' -marked. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with European Standard EN14387. Full face mask respirators with replaceable filter cartridges should comply with European Standard EN136. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.
Environmental exposure controls:	Keep container tightly sealed when not in use.

## SECTION 9: Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties.

Appearance:	Solid. Granules.
Colour:	White
Odour:	Odourless
pH (diluted solution):	11.4 (1%)

Melting point:	851°C/1564º F
Initial boiling point and range:	NA
Flash point:	NA
Evaporation rate:	NA
Flammability:	NA
Upper/lower flammability or explosive limit:	NA
Vapour pressure:	NA
Relative density:	2.509
Solubility(ies):	212.5 g/l water@ 20°C
Partition coefficient:	NA
Auto-ignition temperature:	NA
Temperature:	NA
Viscosity:	NA
Explosive properties:	It is not considered explosive.
Oxidising properties:	There are no chemical groups present in the product that are associated with oxidizing properties.

## 9.2. Other information

Other information:	No information required
--------------------	-------------------------

## SECTION 10: Stability y reactivity

### 10.1. Reactivity

Reactivity	There are no known reactivity hazards associated with this product.
------------	---

### 10.2. Chemical Stability

Stability	Stable at normal room temperature and when used as recommended. Stable under prescribed storage conditions.
-----------	---

### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	No potentially dangerous reactions known.
------------------------------------	---

### 10.4. Conditions to avoid

Conditions to avoid:	There are no known conditions that are likely to result in a hazardous situation.
----------------------	---

### 10.5. Incompatible materials.

Materials to avoid:	Acid anhydrides. Acids. Phenols, cresols.
---------------------	---

### 10.6. Hazardous decomposition products.

Hazardous decomposition products.	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.
-----------------------------------	--

## SECTION11: Toxicological information.

### 11.1. Information on toxicological effects.

<b>Acute toxicity -oral (LD50 mg/kg):</b>	<b>2.800.0</b>
Species	Rat.
Notes (oral LD50):	Based on available data the classification criteria are not met.
ATE oral (mg/kg)	2.800.0
<b>Acute toxicity -dermal:</b>	
Notes (dermal LD50):	Based on available data the classification criteria are not met.
<b>Acute toxicity -inhalation</b>	
Notes (inhalation LC50):	Based on available data the classification criteria are not met.
<b>Skin corrosion/irritation</b>	
Animal data	Based on available data the classification criteria are not met.
<b>Serious eye damage/irritation</b>	
Serious eye damage/irritation:	Based on available data the classification criteria are not met.
<b>Respiratory sensitisation</b>	
Respiratory sensitization:	Based on available data the classification criteria are not met.
<b>Skin sensitisation</b>	
Skin sensitisation:	Based on available data the classification criteria are not met.
<b>Germ cell mutagenicity</b>	
Genotoxicity -in vitro:	Based on available data the classification criteria are not met.
<b>Carcinogenicity</b>	
Carcinogenicity:	Based on available data the classification criteria are not met.
IARC carcinogenicity:	Based on available data the classification criteria are not met.
<b>Reproductive toxicity</b>	
Reproductive toxicity -fertility:	Not classified as specific target organ toxicant after a single exposition.
Reproductive toxicity development:	
<b>Specific target organ toxicity -single exposure:</b>	
STOT -single exposure:	Not classified as specific target organ toxicant after a single exposition.
<b>Specific target organ toxicity -repeated exposure:</b>	
STOT -repeated exposure:	Not relevant. Solid
Información general:	Dust can irritate the eyes and respiratory system. The severity of the symptoms described will vary depending on the concentration and duration of exposure.

<b>Aspiration hazard</b>	
Aspiration hazard:	Not relevant. Solid.
General information:	Dust may irritate the eyes and the respiratory system. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation:	Dust may irritate the respiratory system. Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.
Ingestion:	May cause discomfort if swallowed. May cause stomach pain or vomiting.
Skin contact:	Prolonged contact may cause dryness of the skin.
Eye contact:	Irritating to eyes.
Route of entry	Ingestion Inhalation Skin and/or eye contact.
Target organs:	No specific target organs known.

## SECTION 12: Ecological Information.

### 12.1. Ecotoxicity

Ecotoxicity:	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.
--------------	---

### 12.2. Toxicity

Toxicity:	Based on available data the classification criteria are not met.
-----------	--

### 12.3. Persistence and degradability.

Persistence and degradability:	The degradability of the product is not known.
--------------------------------	--

### 12.4. Bioaccumulative potential

Bioaccumulative potential:	No data available on bioaccumulation
Partition coefficient:	Not applicable.

### 12.5. Mobility in soil.

Mobility:	The product is water-soluble and may spread in water systems
-----------	--

### 12.6. Results of PBT and vPvB assessment.

Results of PBT and vPvB Assessment:	This product does not contain any substances classified as PBT or vPvB.
-------------------------------------	---

### 12.7. Other adverse effects.

Other adverse effects:	None known.
------------------------	-------------

## SECTION 13: Disposal considerations.

### 13.1. Waste treatment methods.

General information:	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods:	Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Waste packaging should be collected for reuse or recycling. Incineration or landfill should only be considered when recycling is not feasible.

## SECTION 14: Transport information.

General.	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
----------	--

### 14.1. UN number.

Not applicable.	
-----------------	--

### 14.2. UN proper shipping name.

Not applicable.	
-----------------	--

### 14.3. Transport hazard class(es)

No transport warning sign required.	
-------------------------------------	--

### 14.4. Packing group.

Not applicable.	
-----------------	--

### 14.5. Environmental hazards.

Environmentally hazardous substance/marine pollutant No.	
--	--

### 14.6. 14.6. Special precautions for user.

Not applicable.	
-----------------	--

### 14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.
--	-----------------

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations:	Health and Safety at Work etc. Act 1974 (as amended). The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716). The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. EH40/2005 Workplace exposure limits.
EU legislation:	Regulation (EC) No 1907 /2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Commission Regulation (EU) No 453/2010 of 20 May 2010. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended). Dangerous Preparations Directive 1999/45/EC. Dangerous Substances Directive 67 /548/EEC

### 15.2. Chemical safety assessment.

No chemical safety assessment has been carried out.

## SECTION 16: Other Information

Key literature references and sources for data.	This SDS is prepared based on the information received from the product owner.
Training advice:	Read and follow manufacturer's recommendations. Only trained personnel should use this material.
Revisión date:	2021
Revisión	10
SDS number:	5215
SDS Status	Pass

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
