

# Caustic Soda Flakes

Last revision: 2019

CAS N°: 1310-73-2

EINECS N°: 215-185-5

## Technical Specifications

Characteristics:	Values:	Test Methods:
Appearance:	Flakes	Visual
Sodium Hydroxide (NaOH)	98%	STAS3068
Sodium Carbonate (Na <sub>2</sub> CO <sub>3</sub> )	0.7%	STAS3068
Sodium Chloride (NaCl)	0.15%	ASTM E291
Ferric Oxide (Fe <sub>2</sub> O <sub>3</sub> )	0.004%	STAS3068

## Specific Properties

pH:	Strongly alkaline
Boiling point:	1390°C
Ignition temperature:	Non flammable
Relative density (water = 1):	2.13 to 25°C
Melting point:	318°C

The values of those characteristics are approximated, are only for general information and are not part of the technical quality conditions.
